## MOBILIZE YOUR BRAND WITH ADRIAN STEEL'S VEHICLE GRAPHICS PROGRAM.

Adrian Steel and Signature Graphics have partnered to be able to provide you with a complete, work ready van. Go on-line to create the look you want, then have your graphics and interior package installed all at the same time at your local Adrian Steel distributor. This saves time and gets your new van in service and working for you quicker.

## NEW VAN, NEW LOOK

The key to commercial graphics is setting yourself apart from the competition. Effective use of color, direct messaging and simple brand identification turn your vehicle into a viable advertising tool.

### WHEN CONSIDERING YOUR DESIGN, START WITH THE BASICS:

- Name and logo
- Phone number and website
- Services you offer
- Your essential message
- Pictures of your product

## BRANDING

More than just your logo, your brand is the total package presented at every point of public contact.

Brands can provide customers with instant and powerful recognition of your business and the services or products that you offer. When you take your brand to the streets, you make an impression on every person you pass.

Completely redesign or just upgrade your image as part of your brand strategy to help grow your business. When it comes to graphics, sometimes less can mean more. While full wraps are an attractive option that we offer, a budget conscious small business owner can have a significant impact on their image without covering the entire vehicle.

## IT'S EASY!

### Step 1

User logs in and selects vehicle year, make, model, and options. The site is preloaded with most commercial vans and pickups.

### Step 2

A blank vehicle will appear on the screen and you are ready to begin designing. The design tool allows users to personalize a professionally designed template, or create a new design from scratch.

### Step 3

Once you have finished your new vehicle design you can instantly price the production and installation by clicking the estimate button. Print your quote to share with your local dealer at the time of your vehicle purchase and include the cost in your financing. Within 7-10 days, your vehicle will be ready to roll!

CommercialCurbAppeal.com produces your graphics on commercial grade vinyls that are the benchmark of the fleet industry. Fit, finish, durability and removability are all critical when considering your investment so they look as good on day 1 as day 1000.

DIRECTV, Best Buy, TRANE, Geek Squad and Penske are all produced with the exact same films. Rest assured that the 3/36 warranty through your Adrian Steel Distributor includes the graphics.

Installation is made simple through your dealer or Adrian Steel distributor.

## NEED MORE REASONS WHY?

CommercialCurbAppeal.com allows you to personalize your vehicle and be sure it positively represents your business.

By adding graphics to the upfitting process your vehicle will be in service faster, saving you time and money.

Graphics through CCA can often be added to your financing package, amortizing your new look over the life of your vehicle.

Graphics will help increase your vehicle visibility and build brand awareness in the community.

Comparatively, vehicle graphics are more affordable than most other advertising options.

**THE NEXT GENERATION OF CARGO MANAGEMENT SOLUTIONS**

Tools, equipment and cargo come in all shapes and sizes and until now, there hasn't been a shelving unit that is **truly adjustable**. The ADseries is the first of it's kind where, with only a screwdriver, you can simply remove the front shelf bolts and move the shelf where you need it. Shelves can be adjusted in one inch increments and provide the most flexible shelving solution available.

**TRULY ADJUSTABLE SHELVES**

All you need is a phillips head screwdriver! The unique shelf design features rear shelf studs that lock the shelves in place and speed nut clips that allow you to attach bolt on easily! Simply remove two bolts from the speed nut clips at the front lip of the shelf, tilt the shelf upwards to disengage the rear studs, move the shelf to your desired location, insert the rear shelf studs, reattach the bolts and you're done!

**ADAPTABLE INTERIOR**

Everyone likes to set their work van up their own way. The ADseries allows you position the shelving where you need it. Exclusive to the ADseries, the unique rail system enables you to reposition the shelving along the rail, increasing the available space for trade specific equipment. All of this is done without removing bolts, plugging holes and redrilling the van! The 6" knock out of the stamped steel end panels provides a 48" floor space to accommodate 4'x 8' sheet goods (up to 22 sheets of 1/4" drywall or a combination of thicknesses).

**ADD ACCESSORIES**

Businesses change over time and your van interior should be able to change with your needs. Plug and Play shelves have prepunched holes that allow adding storage solutions easily! ADseries dividers simply snap in place, drawer units and door kits simply bolt into place. Many Adrian Steel accessories can be added to the ADseries shelving with the rail adapter kits and end panel brackets.
